ABOUT US:

Peoples Empowerment Trust (PET) is aiming to be one of the largest Technological and Scientific research and evaluation organization. The aim of this advanced technological forum for the researchers & scholars is to exhibit their knowledge in the area of science and technology. PET is founded in 2012 as a not-for-profit organization and registered under a trust. We are standing tall in the field of research & technology, our objective is to provide a platform which will encourage and support scholars, researchers & professionals to carry and accomplish their research. PET is an open association of excellent Scientists, Academicians, Professionals, Engineers and Scholars.

CHAIRMAN'S DESK

MR. RASANANDA BARIK

*Honorable Chairman,
Peoples Empowerment Trust*

It is my great pleasure to see the annual report of the PET for 2012-13. This is our beginning of our journey. This new organization will bring various innovative technology invented by our scientific community to the world. I hope in coming days our hard work and dedication will bring some cheer to the world.

*I thank all our employees, my family, our coordinators,
Govt. of India and God.*

Thank you.

Some Facts about the International Journals

Various International Journals have been published from 2013 monthly, bimonthly, half yearly and quarterly. Many journals have been listed in some of the world's top university libraries like Harvard, MIT, Oxford etc. An average of about 15 to 30 papers from the similar domain high quality papers have been selected to each issues after peer review by some of the world's popular professors scientists and industrialists. The printed version of the copy is also available which have been printed at Bhubaneswar and distributed .All Journals are open access and cited by Google.

JOURNAL INDEXING AT

Thank you Messages:

We thank every students and professors who have been associated with us during our journey to make the science popular and innovate more and more technologies to make our life simpler. We also emphasize to develop sustainable technologies to make our earth beautiful place to live. During our Journey from 2012 we have been organized various training seminars and small conferences at various cities of India at world for the awareness of making a successful career in the field of Research and Development.
